Characteristics of Population
In California State Prisons by Institutions
December 31, 1986

Summary

This report presents selected characteristics of the 59,484 inmates who were in Department of Corrections' institutions on December 31, 1986. The contents of this report are as follows:

Table 14	High School Education By Institution	58
Table 15	Military History By Institution	61
Table 16	Employment Experience Prior to Admission by Institution	64
Table 17	Classification Level By Institution	67

There are two tables for each of five characteristics, one by institution and one by sex and type of commitment. This eliminates the need for separate reports for felons and civil narcotic addicts, see Tables 1-11. The remaining characteristics are presented on the felon population only by institution, see Tables 12-17.

Cases with incomplete or "missing" data are included in the tables, but are excluded from the total in order to compute a more accurate percentage.

The characteristics contained in Tables 1-11 are based on the entire institution population which includes felons, civil narcotic addicts and others. The other category includes county diagnostic cases, Youth Authority, federal and other state prisoners and safekeepers. The remaining characteristics, Tables 12-17, are presented on the felon population only by institution.

Cases with incomplete or missing data are included in the tables, but are excluded from the total in order to compute a more accurate percentage.

The characteristics contained in Tables 1-11 are based on the entire institution population which includes felons, civil narcotic addicts and others. The other category includes county diagnostic cases, Youth Authority, federal and other state prisoners and safekeepers. The remaining characteristics, Tables 12-14, are presented on the felon population only by institution.

Cases with incomplete or missing data are included in the tables, but are excluded from the total in order to compute a more accurate percentage.
